

OverNet Education is the first EC-Council Italian partner to offer the new version of the ECIH program – EC-Council Incident Handler!

As a preview, the Italian Experience Class will take place in Milan, from March 20th to 22nd, 2019, in Overnet's facilities. This course is exceptionally offered at 1250€, instead of 2500€!

OverNet Education is the first EC-Council Italian partner to deliver the new version of the ECIH program – EC-Council Certified Incident Handler!

ECIHv2 is a method-driven program that uses a holistic approach to cover vast concepts concerning organizational incident handling and response from preparing and planning the incident handling response process to recovering organizational assets after a security incident.

These concepts are essential for handling and responding to security incidents in order to protect organizations from future threats or attacks.

This course is a preparation for the ECIHv2 certification, one of the most important in Cybersecurity. The voucher to take the certification exam is included for the registered candidates.

This incident handling training program has been developed in joint effort with global intelligence experts on current cybersecurity threats. It is also following a rigorous Job Task Analysis (JTA), this allowing to clearly identify the expected roles in the field of incident handling.

This training is extremely useful for professionals in charge of establishing a dedicated threat handling team, aiming at mitigating and reducing the known IT attacks and anticipating the future ones.
